

Construction of Heritage Plaza, the new park on the South east corner of Citrus and San Bernardino (in front of the Police/Fire Station) is progressing nicely.

You can see the restroom facility and plaza taking shape if you peek through the fence. Staff choose the new trees for the site this week, including the oak tree that will be at the center of the plaza (see photo).

Please contact the Redevelopment Agency at (626) 384-5440 if you have questions on the project.
